3D CREATOR FOR SCHOOL TECHNOLOGY

3D Creator is an easy to use tool that empowers users to instantly select from thousands of 3D models to configure, customize, publish high-quality interactive 3D content and view it in 3D stereoscopic mode.

With 3D Creator users can create engaging interactive learning simulations for training, education and presentation purposes.

Key capabilities include:

- Find, configure and scale your 3D objects from 3D Experience Portal
- Create your own customized 3D scenes with 3D Creator
- Present, experience and Share your scenes in stereoscopic 3D through 3D Creator PRO

Key features include:

- Direct support for search and import of thousands of interactive 3D objects from 3D Experience Portal
- Easy Scene Editing including position, rotation and scale of objects

System Requirements*

PC with Windows XP, Vista or 7

RAM: 512 MB (Recommended 2 GB).

Graphics card: Any (Recommend nVidia Geforce 8800GT or later to be able to use all graphic features). Browser: Internet Explorer 8.0 or higher (32-bit only)

*** The system requirements can change depending on the content being shown in the 3D application. More polygons, textures and complex calculations require better graphics cards and more RAM and processor speed.**

EFFECTIVE JANUARY 2012. Prices subject to change without prior notice.
